

Collaborative information Acquisition Processing Exploitation and Reporting

For the prevention of organised crime

CAPER

Collaborative information Acquisition Processing Exploitation and Reporting for the prevention of organised crime.

CAPER will develop a collaborative platform for information sharing amongst Law Enforcement Agencies (LEAs), with support for multilingual and audio-visual content analysis, and supported by Visual Analytics Technologies.

European Law Enforcement Agencies are increasingly more reliant on information and communication technologies and are affected by a society shaped by the Internet and social media.

This challenge can also be seen as an opportunity for LEAs. The richness and quantity of information available from open sources, if properly processed, can in itself provide valuable intelligence and help draw inference from existing closed source intelligence. Sharing information and acquiring intelligence across borders implies common standards for database access and interoperability.

The CAPER project makes no assumptions on the existence of such common standards and will instead attempt to establish coherent common standards amongst the end-users that will be participating in the project, contributing to an eventual future de facto and/or formal standards and best practices.

OBJECTIVES

- User Focused Project
- User Defined Project
- Cross and Multilingual Analysis
- Video, Image, Biometrics, Speech and Audio Analysis
- Combine Open and Closed information sources
- Help LEA cooperation
- Allow information Sharing
- Automate Processes
- Standardise
- Propose practices and procedures
- Active, real, participation of LEAs
- Ease integration of legacy systems
- Evangelise the results of the project

INNOVATIONS

- Standards Based Technologies and Common Architecture
- Focus on Operational Interoperability
- Multilingual Analysis
- Multimedia Analysis
- Visual Analytics
- User, not Technology, Focused

COMPOSITION OF THE PARTNERSHIP

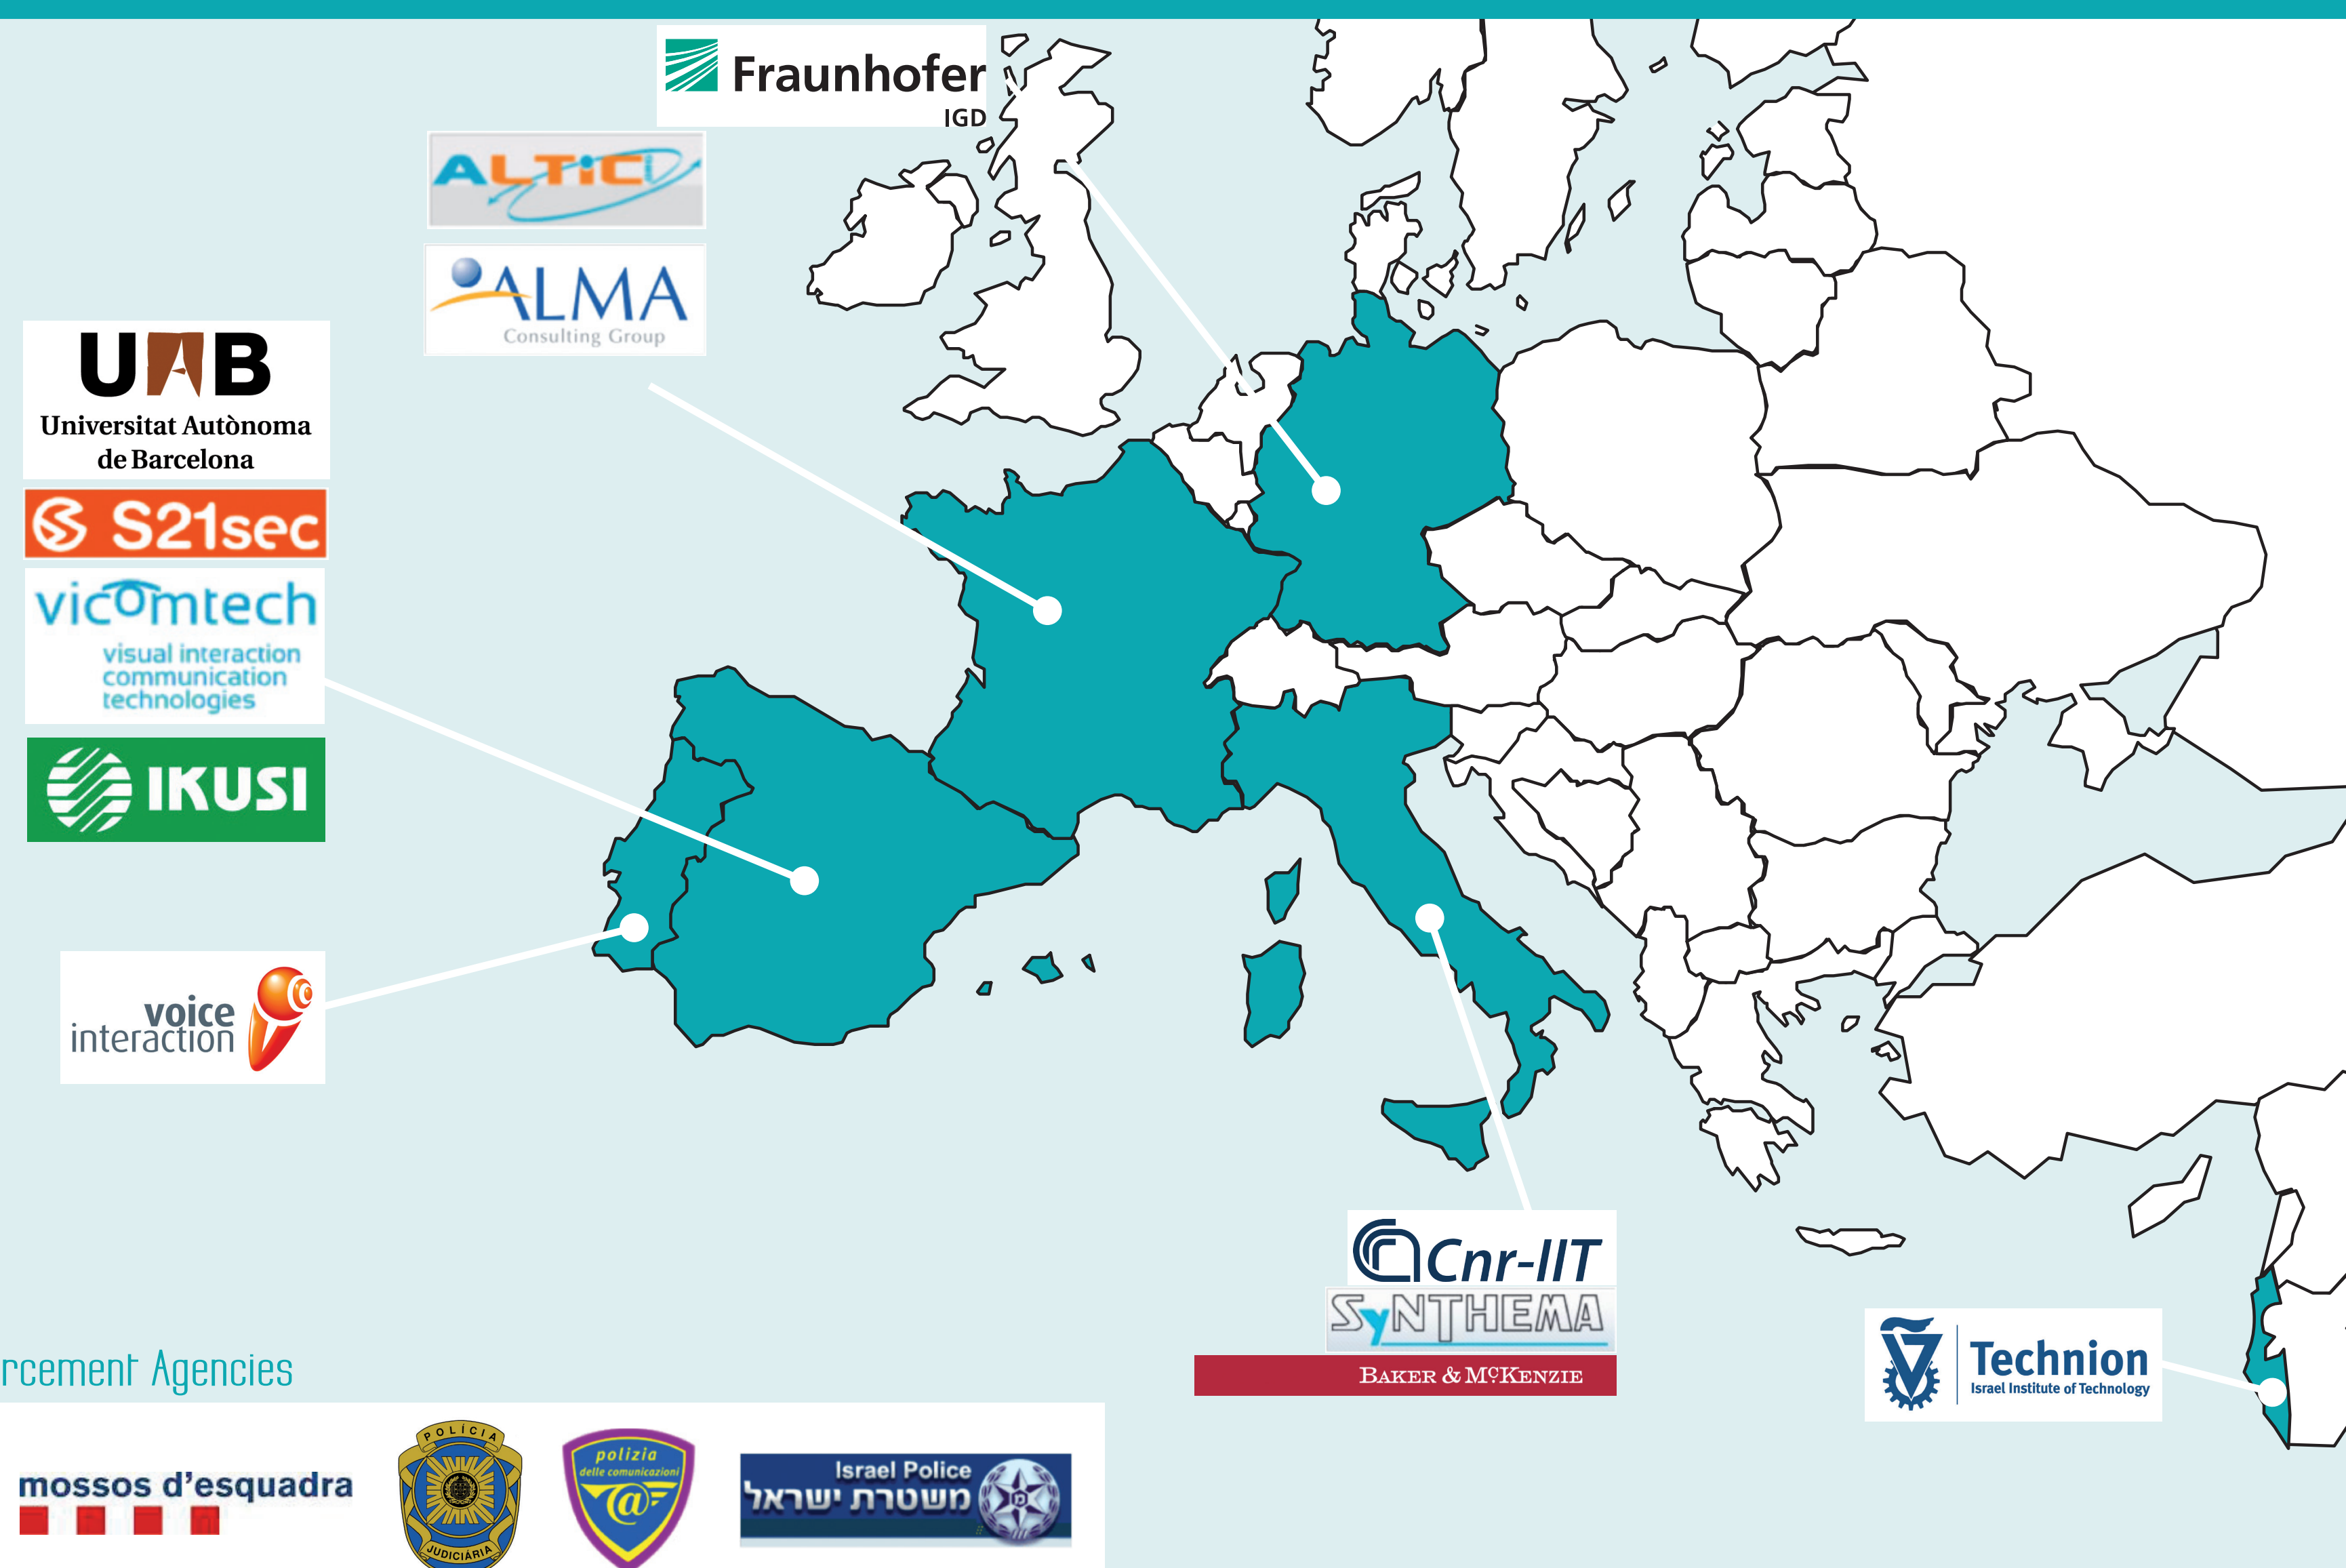

ACKNOWLEDGEMENT

Duration	Grant
1st July 2011 - 30th June 2014	5 579 346 €
Budget	Contract number
7 143 920 €	261712

KEY CONTACTS

Project coordinator	Contract manager
S21SEC www.s21sec.com	ALMA CG www.almacg.fr
Technical manager	Exploitation manager
